

Get valuable feedback from your site visitors through the powerful and versatile **Guestbook Version 4.1**. Managing a feedback system can be time-consuming.

GuestBook makes it a snap, letting you receive guestbook entries from your site visitors in real time, making your site user friendly and interactive! It features a familiar and consistent user interface, an easy-to-use Administration

Panel that uses the best elements of our suite of products, and a highly configurable interface that integrates seamlessly with the rest of your website.

A screenshot of the Guestbook 4.1 interface. The page has a green header with the text 'Welcome to Our Guest Book'. On the left, there is a vertical navigation menu with buttons for 'Home', 'Guest Book', 'Gallery', 'About Us', and 'Contact'. Below the menu is a decorative image of white flowers. The main content area is titled 'Sign Guestbook' and contains a form with the following fields: 'Guest Name' (filled with 'Joe Jones'), 'Date' (12/23/2005), 'Time' (3:45 PM), and 'Title' (filled with 'Thank you for your help!'). Below these is a 'Message' field containing the text: 'I really appreciate what you have done. More Power and Good Luck. Best Regards, Joe Jones'. At the bottom of the form is a CAPTCHA section with the text 'Please enter code from image' and a box containing '210878' next to a distorted image of the number '210878'. A 'Sign Guestbook' button is located at the bottom of the form. At the very bottom of the page, there is a navigation bar with links for 'Home | Guest Book | Gallery | About Us | Contact |'.

GuestBook v4.1 Main Features

CAPTCHA: GuestBook provides a CAPTCHA system that challenge posters, preventing automated scripts from posting ads on the guestbook.
